BOOK SYNOPSIS

Textbook of Anatomy is divided into three volumes, with volume one on upper and lower extremities, volume two on thorax, abdomen and pelvis and volume three on head, neck and central nervous system. Written for both undergraduate and postgraduate students, the text is presented in an easy to understand format, with detailed explanations of clinical correlations of anatomical structures. Each volume contains numerous high quality illustrations and tables to enhance learning, as well as supplementary free online access to a colour atlas, review questions and answers and self assessment of pictures.
