BOOK SYNOPSIS

Scholars from various disciplines worked together to present the first interdisciplinary book to address the issue of Islam, secularism and globalization. The book has a clear structure which represents its interdisciplinary approach: the first section addresses the philosophical and historical discussion about Islam and secularism; the second section discusses the topic from an ethnographical and social anthropological viewpoint; and the final section addresses Islam, secularism and globalization from a political viewpoint. This unique collection not only offers innovative research and new material, it also provides empirical examples and theoretical debates, and could therefore also be used as a textbook for courses on Islam, globalization, anthropology, politics, sociology and law.
